RETIREMENT FUND BILL . Buswell, recording secretary; Homer ADOPTED FOR TEACHERS

Board of Education to Present Measure to Congress-Based on Annuity System.

the establishment of a teachers' retirement fund was adopted yesterday by mediately presented to Congress. For five years the school authorities have had this matter under consideration and several bills have been drawn Some of them have found their way to Congress, but none is pending at the

The bill adopted yesterday was reported out by the committee on teachers' retirement, of which William T Galliher is chalrman, and will be presented by that committee to the proper authorities at the Capitol.

It provides for the deduction from the salary of every school teacher of an amount which, at 4 per cent interest annually, will be sufficient to purchase from the United States, under the terms of the act, an annuity, payable month-ly for life, for every teacher arriving at the retirement age. This age is fixed

at sixty-two years by the provisions of the measure. After teachers reach the age of sixty-two years they may retire, but must retire on reaching seventy years of age, unless the board of education deems it essential that they be retained. A clause states that no basic salary higher than \$1,500 a year shall be considered.

Aside from acting on the retirement bill the board yesterday transacted only business of a routine character. Dr. E. S. Newton was given a unanimous reappointment as principal of the Western High School. It was decided to inform the Army and Navy Union that on account of the annual drills and other events of school life occurring soon the high school cadets will be prevented from participating in the exercises at Arlington May 30, when the union commemorates with appropriate services the sinking of the battleship Maine.

URGES THE BETTERMENT

Action Taken by Congress Heights Improvement Association-Cther Business Matters Considered.

Members of the Public Improvemen association of Congress Heights took ccasion last night at the regular eeting of this body to discuss in gen eral the street railway facilities to the suburb and adopt plans whereby it is oped this service will be improved. It was learned from a letter from the utilities commission that that body was at present giving consideration to the equest of the association for a fiveninute headway between cars and also that the question of crowding was beng considered.

Edward Blaine, chairman of the railroad committee, reported that it was
necessary for patrons of the Congress
Heights line, in going to the Union
station, which is about a thirty-minute ride from the Heights, to wait from
15 to 20 minutes for cars to ride the
distance, due to the fact that none of
the cars are operated by way of Union
station and it was necessary to transfer at 1st and E streets.

Old Schedule in Use.

A. E. McKay called attention to the

fact that the same schedule was in operation today that was in vogue about five years ago, yet in that time he population of the suburb had increased nearly 50 per cent. He also re marked that passengers on the line were packed in the cars, riding on the unning boards, on fenders and on the running boards, on fenders and on the backs of the cars, contrary to the regulations, yet nothing was done to prevent it. The association is determined that something be done without delay to improve the condition and will send a special committee to the utilities commission with this end in view. It was also stated by Mr. McKay that when the summer pleasure parks open in the Barry Farm it will be almost impossible to get on a street car unless an added number of cars are operated. Edward J. Newcomb again presented. CLAIMS \$20,000 DAMAGES.

Charles O. Millar Sues John Thole,
Alleging Fersonal Injuries.
Charles O. Millar has filed suit in the
District Supreme Court to recover \$20.000 damages from John Thole for alleged personal injury. He charges that
the defendant placed, or permitted to
be placed, boxes and barrels in the
street in front of his grocery at 6th
and B streets southeast, and while the
plaintiff was riding a motor cycle, January 28 last) the machine collided with
the obstruction and caused him to sustain painful injury.

Charles O. Millar Sues John Thole,
Edward J. Newcomb again presented
the matter of the opening of the nurse's
gate in the opening of the opening of

Legislative Committee's Report.

Gustave Bender, chairman of the leg slative committee, reported that items had been included in the District bill for the grading and improving of Portand street, \$10,500; Livingston road, \$9,000; Nichols avenue, \$11,800. In this connection a request will be sent to Representative Johnson, chairman of the House district committee, asking that an item of \$10,300 be included for improvement of Alabama avenue Nichols avenue to 10th place, and

from Nichols avenue to 10th place, and also \$2,800 for Raleigh place from Nichols avenue to 7th street.

The question of a permanent system of numbering of houses in the suburb was settled last night by the loan of a large atlas to the association by the District authorities, from which the proper numbers can be obtained. During the month the work of numbering these houses will be accomplished.

C. D. Weaver and Rev. E. E. Richardson were elected to membership in the c. D. Weaver and Rev. E. R. Richards son were elected to membership in the association. J. S. Lyon, vice president, presided. The meeting was held in Loeffler's Hotel, and it was decided that in the future the meetings of the association would be held at that place.
